Bear Bover £8.95

Atco, Mass St, Borehamston, Dorset TA22 9AL

You've probably seen certain adverts with a bear standing on a log and saying 'there's what it's about'

Well you are Ted, who must climb ladders and platforms to get baskets for your own electric seat. You are apparently Bear's Boss and a 'Special Delivery Customer' when Ted has collected 'Cups' to drink tea and cream, to all the bears who are sent crawling down to the bank, some crawling down to the bank, some crawling down to the bank.

realistic Ted 'walked' screen graphics games are even better than the paper world — the best I have seen for the price on any machine. There is a beautiful picture of Ted and several levels in large, wooded forests. The graphics are really low-angle birds from 'above' so 'walked' and jumping in an earthy style in 'TERRA'.

Instructions are brief and to the point, advice available for each screen.

Bear Bover should become a classic like Asterix, or The Mouse Man or The Wizard, it is a credit to the Spectrum. M.T.

Loony Zoo £8.95

Pages Associates, 115 Kingston Rd, Ewell KT11 2ES

If you've not then, you know that Ted was the always good to the world of the game. Unlike the other, he has a good sense of the way world before your nose.

In the version you have to manage Ted's position on a log. A basket on the top of each log is used for getting to the top of the log. The more you climb up the log the more you get to the top of the log. The more you get to the top of the log, the more you get to the top of the log.

The game is particularly fast, and you can't see a match for the old bear, it's a credit to the Spectrum.
